

Neighborhoods by **satellite** means more qualified homebuyers.

HOMES & LAND HAS TEAMED UP WITH MICROSOFT VIRTUAL EARTH to make your job easier. HomesAndLand.com offers consumers satellite maps of an area. Homebuyers can easily identify and evaluate properties in term of style, price range, access to major thoroughfares, and upcoming open houses. Homebuyers can then tag properties that they would like for you to show them. Because homebuyers are better informed, you'll spend less time driving them around. Qualified homebuyers brought to you by **HomesAndLand.com**.

Integrated Advertising That Delivers ... Leads. Listings. Personal Branding.
